FULLSTACK DEVELOPER

FullStack Developer (.net core / Angular) with 6 years of experience, focused on Microsoft technologies: C#, .net core, Azure platform, and then Angular, RxJS, Cordova and a bit of React for Front-End. I enjoy working in a team and share experience.

EXPERIENCES

Infinite Square | Consultant FullStack

JULY 2013 – TODAY (6+ YEARS)

Mainly setting up web solutions (Asp.Net MVC/Core with Angular & cross-platform mobile app in Cordova), small team management (3~4 people).

Significant missions:

MICROSOFT & Faurecia | CURRENTLY : Participating to the creation of a VPA (Virtual Private Assistant) for a connected car cockpit, using Speech recognition (STT / TTS), Luis, Microsoft Bot Framework, Docker. This solution is meant to be a demo for the CES event in Las Vegas USA.

LFP (Professional Footbal League) | 1YEAR AND 6 MONTHS: Creation of 3 front apps made with Angular for the Club, Stads and Competitions management of the league. Consuming APIs with large scaling requirements. Micro services architecture, CQRS, Azure services bus and CosmosDb (noSql).

Rothschild & co (International private bank) | 5 MONTHS : Reworking of the extranet for clients. Asp.Net MVC, AngularJS and mobile app (Cordova)

Elior | 1 YEAR AND 9 MONTHS (ACCUMULATED) : Creation and participation in programming of two platforms web & mobile bound for professional and school cafeteria clients.

Somatic | Internship

2012 - 4 MONTHS

Single Page Applications development (Asp.Net MVC4 & Knockout.js)
Windows 8 app development (c#, WinRT)

Miscellaneous | Internship

2MONTHS A YEAR BETWEEN 2010 AND 2012

PHP & ASP developments.

SKILLS

- Dotnet framework: c#, ASP.NET (core)
- Agile
- Git
- Microsoft Azure: service bus, storage.

- JavaScript / Typescript, Less / Sass
- Angular, React, redux, RxJS
- Unit tests & Integration tests (JS et C#)
- Web components

Basic knowledges:
- MS IoT services, Cognitive Service.
- Docker

- WebGL & BabylonJS
- NodeJS
- Notions Firebase

REALIZATIONS

3 Formations leaded about Cordova, participation to 2 white papers for Microsoft Days and one publication in the "Programmez" magazine about Cross-platform technologies.

FORMATION

Master's degree (+ 5 years) | Supinfo international university
2009 – 2014
SUPINFO is a French International private school of IT, teaching very large disciplines program: Development (native, mobile, web …) as well as System & Network (cisco, Windows server… etc) and law / management.
I have been able to be teacher (during my studies) for 3 courses (ASP.net, Windows phone, and c#) for the 3rd and 4th grades.

Baccalaureate
2009
Electronic branch.

ACTIVITIES

Computer assisted drawing, music (drums, bass), martials art. A bit of DIY/IoT
